

ATHLETIC COMPLEX AT A GLANCE

The Struthers City Schools is spearheading a fundraising campaign to replace the turf, track and add a new baseball field.

The architectural renderings in this brochure provide a glimpse of what the completed project will look like.

WHY A NEW FIELD?

Struthers believes in creating well-rounded students with attention to academics, athletics and the arts. This multi-purpose project will support all Struthers students.

Football practices and games, marching band practice and performances, soccer games, track meets, community events, physical education classes, practice for baseball and softball, plus community youth leagues can all be conveniently scheduled without concerns of field conditions.

STRUTHERS CAPITAL CAMPAIGN

PROJECT INFORMATION

ARTIFICIAL TURF, TRACK AND BASEBALL FIELD

STADIUM PROJECT BENEFITS

Some of the highlights of the proposed multi-purpose stadium project include:

- ◆ Bringing the girls home soccer games back to Struthers — they currently have to play at Youngstown State University.
- ◆ New track for students and updated for continued community use.
- ◆ Youth community leagues can utilize the new turf field
- ◆ Band shows and practices can take place on the new turf field.
- ◆ Physical Education classes can be held outside on the new field and track.
- ◆ Increased participation in community service events, concerts and more.
- ◆ Provide a facility that can service the increasing needs of Struthers students and athletes.
- ◆ Elevate pride and enhances experiences.

Once a Wildcat....Always a Wildcat
